

Working with SNOMED CT as a Clinician

Our commitment to
clinical engagement:

Clinically assured SNOMED CT
content

Clinical input into future
developments

Corporate clinical culture driving
clinically supportive product
development

Clinically driven implementation
support

Timely responses to clinical advances

Clinically supported
derivatives (subsets/maps)

Clinically responsive
educational materials

Information about SNOMED CT
and SNOMED International's clinical
engagement initiatives.

SNOMED CT is a multilingual healthcare terminology originally created by, and annually enhanced through, extensive clinical input. It contains over 350,000 concepts with unique meanings and formal logic-based definitions.

Engaging with clinicians is fundamental to ensuring that the SNOMED CT product is, and continues to be, fit to support clinical practice. Clinical input to support the development of SNOMED CT is an integral part of producing electronic health information consistently, reliably and comprehensively.

SNOMED CT: A Quality Product

Maintaining the quality of SNOMED CT is of core importance and rigorously undertaken by the organization on an ongoing basis.

We ensure a quality approach though:

- Expert personnel
- Guidance and training
- Collaboration

Collaboration

We collaborate with many international clinical professional and standards development organizations, including:

- American Dental Association (ADA)
- American Medical Association (AMA)
- Global Alliance for Genomics and Health (GA4GH)
- Institut national de la santé et de la recherche médicale (INSERM)
- International Council of Nurses (ICN)
- Regenstrief Institute
- World Health Organization
- World Organization of Family Doctors (WONCA)

Visit our website for more information about these (and other) collaborations: snomed.org/snomed-international/our-partners

Join our Community

CLINICAL REFERENCE GROUPS: Contribute to the development of SNOMED CT and join a group focused on a clinical discipline (snomed.org/our-stakeholders/clinicians)

- Allergies Hypersensitivity and Intolerance
- Anaesthesia
- Dentistry
- Genomics and Precision Medicine
- General practice/Family practice
- Mental and Behavioural Health
- Nursing
- Pathology and Laboratory Medicine

ATTEND AN EVENT: SNOMED International hosts two events annually (snomed.org/news-and-events/events). Our 2020 events are:
